

To the Citizens of Ancaster

At the door, I have heard the issues affecting Ancaster are congestion on arterial roads, preservation of the unique character of Ancaster and high taxes.

I have the experience and knowledge to deal effectively with these issues.

First I am a proven community leader. I spent 10 years as an Ancaster Councillor. In all 10 years we had balanced budgets. We purchased the land and built the Ancaster Community Centre. I spent 3 years as a School Trustee, 6 years on the Hamilton Conservation Authority Board, 9 years on the Board of the Senior Achievement Centre, chaired the building committee for Fieldcote, served 4 years on the Board of Hamilton Utilities Corporation and currently I sit on the Board of Hamilton Health Sciences. This experience has made me knowledgeable on Ancaster issues and will assist me when I represent you in the Council Chamber.

Secondly, I am a proven business leader. I spent 32 years at Dufferin Construction, the last 12 years as General Manager. During that time the company gained a reputation as a safe employer bringing in projects on time and on budget. I was also chosen by industry peers to represent them as President of four industry associations. This provided me with an invaluable knowledge of infrastructure.

The final reason is my endorsement by Ancaster community leaders: Bob Wade, Ann Sloat, John and Ellie Voortman, and Bruce Pearson. Most of all, my brother Murray, the current Ancaster Councillor would like me to be his successor.

You can be sure I will put all my energy, passion and experience into dealing with your issues as your full time councillor. I will use my business training to deliver the bottom line.

On November 13, I respectfully ask for your vote.

Lloyd Ferguson
